PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with a strong academic background and practical experience in software development, problem-solving, and teamwork. Passionate about learning new technologies and building efficient, user-focused applications. Seeking an internship or entry-level software engineering position to apply technical skills while contributing to organizational success.

EDUCATION

Bachelor of Science (B.Sc.) **in Computer Science & Engineering (CSE)**
United International University (UIU)
[Session:2023-2027] | CGPA:3.91/4.00

Higher Secondary Certificate (HSC)
Dhaka City College
Science Group | GPA: 5.00
Session: 2019–2021 | Batch: 2021

Secondary School Certificate (SSC)
Monipur High School
Science Group | GPA: 5.00
Session: 2017–2019 | Batch: 2019

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python
Web Development: HTML, CSS, JavaScript,PHP

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code,Figma, Microsoft Office

Concepts: Object-Oriented Programming, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering

---

PROJECTS

- **Care System – Curex Mobile App**

-A web-based healthcare management system developed to streamline patient record handling, appointment scheduling, and service management. The platform ensures organized data storage and easier administrative access.
Curex aims to improve workflow efficiency while maintaining simplicity and usability for healthcare providers.

GitHub:https://github.com/IbtidaAra5/Curex-Mobile-app-Design

- **Laundry Service Management System-CleanCare**

- A structured role-based web application that manages laundry operations efficiently. The system includes separate dashboards for Admin, Staff, and Customers to handle order tracking, service updates, and workflow organization.
It focuses on improving operational transparency and enhancing overall service experience.

GitHub:https://github.com/IbtidaAra5/CleanCare

- **AI-Powered Hexapod for Autonomous & Wireless-Controlled Navigation**

- An intelligent six-legged robotic system capable of autonomous navigation using AI-based decision algorithms. The robot detects obstacles, adapts its path in real time, and maintains coordinated movement across varying environments.
It also supports wireless remote control for manual navigation and testing. This project integrates embedded systems, sensor modules, and control logic to build a responsive robotic platform.

—

🔹 **Cargo Storage System**
Automated Approach to Airport Safety & Security

A smart automation-based solution designed to improve airport cargo safety through controlled access and structured monitoring. The system focuses on secure storage management, operational efficiency, and minimizing human error in sensitive environments.

It emphasizes safety, reliability, and systematic cargo handling processes.

EXPERIENCE

🔹 UI/UX Design Intern
Thiranex | Remote
July 2026 – Present

- Selected as a UI/UX Design Intern at Thiranex internship program.
- Learning and applying UI/UX design principles, user research, and design workflows.
- Working on assigned internship tasks to gain practical industry experience.

CERTIFICATIONS & ACHIEVEMENTS

- AI Workflows and Agents – GP Academy – 2026

  Link:https://www.grameenphone.academy/cert/ad3618e13494

- AI+Superpresentations – GP Academy – 2026

  Link:https://www.grameenphone.academy/cert/cb62ee5eb7ec

- GenAI & Prompt Engineering – GP Academy – 2026

  Link:https://www.grameenphone.academy/cert/aa1685969389

SOFT SKILLS

- Problem Solving
- Communication
- Teamwork
- Leadership
- Time Management
- Critical Thinking
- Adaptability

LANGUAGES

- Bengali – Native
- English – Professional Working Proficiency
