Professional Summary

Final-year Computer Science and Engineering student with a strong academic background and practical experience in software development, problem-solving, and teamwork. Passionate about learning new technologies and building efficient, user-focused applications. Seeking an internship or entry-level software engineering position to apply technical skills while contributing to organizational success.

Skills

Languages: C, C++, Java, Python, HTML, CSS, PHP, MySQL
Tools & Platforms: VS Code, Figma, Microsoft Office Suite, Jira, Jupyter Notebook, Google Workplace, Overleaf
Version Control: Git, GitHub
Networking: Understanding of routing, switching, and network protocols (TCP/IP, DNS, DHCP)
Database Management: MySQL
OS & Systems: Linux (Ubuntu), Windows

Work Experience

CodeAlpha | Remote — Aug 2026 – Present
ML Engineering Intern

- Selected as an ML Engineering Intern at CodeAlpha's remote internship program.
- Working on assigned machine learning tasks — data preprocessing, model training/evaluation, and applying ML workflows — to gain practical industry experience.
- Collaborating with the team on task deliverables and following structured internship guidelines.

United International University — 13 Jul 2026 – Present
Undergraduate Teaching Assistant

Thiranex | Remote — Jun 2026 – Aug 2026
UI/UX Design Intern

- Selected as a UI/UX Design Intern at Thiranex's internship program.
- Learned and applied UI/UX design principles, user research, and design workflows.
- Worked on assigned internship tasks to gain practical industry experience.

Education

United International University — **CGPA: 3.91/4.00**
B.Sc. in Computer Science and Engineering (Session: 2023–2027)
Relevant Coursework: Object Oriented Programming, Data Structures & Algorithms I & II, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Data Mining, Machine Learning, Project Management

Dhaka City College — **GPA: 5.00**
Higher Secondary Certificate (HSC), Science Group — Session: 2019–2021, Batch: 2021

Monipur High School — **GPA: 5.00**
Secondary School Certificate (SSC), Science Group — Session: 2017–2019, Batch: 2019

Project Work

- **Patient Care System – Curex Mobile App** *(Figma, Low-Fidelity Prototyping)*: Designed a web-based healthcare management system to streamline patient record handling, appointment scheduling, and service management. [GitHub]
- **CleanCare – Laundry Service Management System** *(HTML, CSS, JavaScript, TypeScript)*: Built a structured, role-based web application managing laundry operations with separate dashboards for Admin, Staff, and Customers to handle order tracking, service updates, and workflow organization. [GitHub]

- **AI-Powered Hexapod for Autonomous & Wireless-Controlled Navigation**: Developed an intelligent six-legged robotic system using AI-based decision algorithms; detects obstacles, adapts its path in real time, and maintains coordinated movement across varying environments. [GitHub]
- **Cargo Storage System – Automated Approach to Airport Safety & Security**: Designed a smart automation-based solution to improve airport cargo safety through controlled access and structured monitoring, focusing on secure storage management and minimizing human error. [GitHub]
- **ExpenseMate – Mobile App** *(Figma, Low-Fidelity Prototyping)*: Designed a mobile expense-tracking app for university students and young professionals to log income/expenses and stay on top of their monthly budget. [GitHub]
- **Pawsitive Tails Veterinary Care** *(HTML, CSS, JavaScript)*: Built a frontend demo of a veterinary care platform where pet owners can manage their pets' healthcare in one place. [GitHub]
- **UIU-Connect** *(TypeScript, JavaScript, CSS, HTML)*: Developed a university-focused social networking platform enabling content sharing, communication, and engagement within an academic community. [GitHub]
- **Crimson Cup Bangladesh — Website UI Redesign** *(Figma, Low-Fidelity Prototyping)*: Led a usability-focused redesign including a Nielsen heuristic evaluation, mood board, style guide, and responsive high-fidelity mockups for desktop and mobile. [GitHub]

Certifications

- **AI Workflows and Agents** — GP Academy, 2026 [Certificate]
- **AI+Superpresentations** — GP Academy, 2026 [Certificate]
- **GenAI & Prompt Engineering** — GP Academy [Certificate]
- **AI-Pro Aptitude Hacks** — GP Academy, 2026 [Certificate]
- **Build ATS-Winning CV** — GP Academy [Certificate]

Achievements

- **Academic:** Received 9 scholarships with 100% tuition waivers (2), 50% waivers (5), and a 25% waiver (2), maintaining tuition-waiver status through all trimesters.
- **BeCrowd:** Solved 150+ coding problems.
